

Welcome to LithuanianGiftsOnline.com

Candle houses (also known as candle holders) take major portion of our product catalog, and there is a good reason for it. Candle Houses is relatively a new product in Lithuania. First time they appeared in 1991 during the fight for Lithuanian independence from the Soviet Union. People supporting Lithuanian fight for independence were lighting Candle Houses and putting them between double-glass windows as the sign of support. Since then, Candle Houses are regarded as one of the symbols of independence and tightly related to Lithuania's quest for freedom.
